Vice President Meets Good Cheer on His Hurry-Up Tour of Indiana.

STATE IS FOR HIM

Marion, Wabash, Huntington and Other Cities Give Good Crowds and Cheering Banners.

Indianapolis, Nov. 1.—The second day of the four days' speaking tour of Indiana by Vice President Charles W. Fairbanks was spent in northern Indiana, the night meeting being scheduled for South Bend. The special train bearing the vice president and party left Richmond on schedule time today. The first stop was made at Hartford City. Other meetings were scheduled for Marion, Wabash, Huntington, Rochester, Argos, Knox, Valparaiso, Hammond, Michigan City and Laporte, the day closing at South Bend.

The weather was ideal and at every stop large crowds greeted the distinguished party. Mr. Fairbanks slept soundly until 7:30 o'clock notwithstanding the noises in the union station at Richmond where his car remained during the night. The vice president greeted the early callers most pleasantly and chatted with the newspaper men before breakfast. A hard day's work was before him, but he did not show any evidence of worry or anxiety. He was scheduled to travel 318 miles and make fifteen speeches. At manufacturing points he discussed the tariff and regulation of trusts and in every address he urged that the policies of President Roosevelt and Governor Hanly be upheld. Governor Hanly joined the vice president at Rochester this afternoon.

A Pleasing Allusion.

At Hartford City Mr. Fairbanks was introduced by Grant Lupton, nominee for state senator. When Mr. Lupton said "the vice president" several persons in the crowd shouted "our next president." This sentiment was received with cheers.

The Marion reception committee boarded the train at Hartford City. It consisted of Gus Condo, A. C. Alexander, Judge H. J. Paulus, A. Y. Stout and Harry Charles. The vice president briefly addressed the veterans at the soldiers' home. The vice presidential salute was boomed from the cannons and the old soldiers cheered heartily as the train stopped. Mr. Fairbanks paid a warm tribute to the old soldier. He again urged the importance of upholding the hands of the president by electing to congress men who are in sympathy with his policies.

Introduced as "Next."

Mr. Fairbanks spoke from the rear end of the train at Marion, where he was introduced by Gus Condo as the "next president of the United States." Discussing the trusts he said:

"Our growth in industry and commerce has been so tremendous that they have outstripped individual capacity. Therefore combinations of capital have been effected in order to advance our industry and commercial welfare. It is not altogether unnatural. On the contrary it is quite natural that in this rapid evolution there should have grown up here and there practices inimical to the welfare of the great body of the people. So-called trusts have been created which have been regardless of wholesome competition among the people. The republican party has said that where there are combinations in restraint of trade these combinations shall be compelled, under the mandate of the law, to cease from their evil and pernicious practices. We have enacted many laws in the past for the purpose of curing the confessed evils in interstate commerce and interstate trade. They are being executed as they were intended to be by the great national congress which wrote them into the law, by the president of the United States, Theodore Roosevelt."

The meeting at Wabash was enthusiastic. United States Marshal Harry Pettit introduced the vice president. Two speeches were made at Huntington to large crowds. The first was at republican headquarters and the second to four hundred railway employes at the shops of the Chicago and Erie railroad, where the first McKinley club in the west was organized. Mr. Fairbanks shook hands with nearly all the men.

Huntington Repeats It.

In front of the republican headquarters at Huntington a great banner stretched across the stret which attracted much attention. It read: "Fairbanks for president—Landis for congress."

Henry Marshall, chairman of the Tenth district republican organization, joined the train at Huntington. Rochester had a great crowd out to greet the vice president.

SWITCHMEN GET NO RAISE.

Chicago, Nov. 1.—Railroad managers today informed the Switchmen's union that their demand for a raise of 10 cents an hour would not be granted. The railroads declared that the switchmen would accept an increase of 2 cents an hour or nothing. Vice Grand Master Dodge, of the Brotherhood of Railway Trainmen, said late today that the advance of 2 cent san hour would not be satisfactory to the men.

HAND MASHED.

Arthur Brumberk, an employe of the Electric works, had one of the bones in his right hand broken by having it caught in a machine he was operating. The injury is a very painful one and will prevent him working for some time.

BIG CROWD WILL HEAR BEVERIDGE

ELOQUENT INDIANA SENATOR IN FORT WAYNE TONIGHT.

Comes This Afternoon for Premier Republican Meeting of Campaign —Political News.

Republicans will hold their largest meeting of the present campaign in Fort Wayne this evening with Senator Albert J. Beveridge as the chief orator, and the indications from over the district are that a tremendous audience will greet Mr. Beveridge, who is very popular with his party in Fort Wayne.

Senator Beveridge is scheduled to reach the city at 4:36 o'clock this afternoon over the Wabash railroad. He will be met by the committee which has been in charge of arrangements for the meeting and escorted to the Wayne hotel. His principal address will be delivered at Princess rink at 8 o'clock, Judge Walter Olds presiding. Prior to Senator Beveridge's arrival at the rink this evening, Mr. Gilhams will speak for half and hour, with C. S. Bash as chairman of the preliminary meeting.

While this is in progress an overflow meeting will be held at the court house, where W. C. Geake will preside, and where Lieutenant Governor Miller and Hon. W. L. Taylor will speak before the arrival of Mr. Beveridge to address the overflow meeting at 9:30 o'clock.

CHILDREN BY FIRST WIFE ARE CUT OFF

WILL OF LORD SCULLY IS MADE PUBLIC.

Land Baron Who Owned Vast Farms in United States is Sensational In Its Provisions.

Washington, Nov. 1.—The will of William Scully, otherwise known as "Lord" Scully, said to be the largest owner of real estate in America, was filed here today for probate. The document was executed April 22, 1901. All his lands, none of which are outside the United States, are devised absolutely to his wife, Angela Scully.

Mr. Scully totally disinherits his three daughters, Mary, Julia and Kathleen, in language as follows:

"I leave my three daughters by my first wife, Mary and Julia (both of whom, I hear, have been married) and Kathleen, and to their children and their descendants and each of them nothing whatever, my will and meaning being absolutely and entirely to disinherit all and each of the three of them and their descendants. I do this for superabundant reasons, which I forbear to particularize here." The ban is lightened as to the youngest daughter Kathleen, whom the testator recommends to the kind consideration of the widow, but leaving the latter free and unfettered as to what action she may take. The testator approves and confirms all gifts and conveyances of property and rights made to his son, Thomas Scully and his wife, E. Angela Scully.

Mrs. Scully is appointed guardian of the son, Frederick K. Scully, during minority. The widow and F. C. W. Koehnle and Frederick Trapp, of Lincoln, Ill., are named executors. His son, Frederick Scully, when the latter attains his majority, is also to be an executor.

No valuation is placed on the estate, which has been variously estimated at from one to three million dollars.

PUTTING ON BINDER.

The work of putting the binder on the concrete on Lake avenue was begun this morning and with favorable weather the Barber Asphalt Paving company expects to complete the work in about eight days. As soon as Columbia avenue is torn up south of the street car tracks planks will be put down on top of the concrete in order to afford an approach at the east end of the bridge.

THINKS CROKER'S MESSAGE FORGERY

Murphy Scouts Genuineness of Late Leader's Word to McCarren.

HEARST MAKES MOVE

In Court Charges Mutilation of Independent League's Petitions —Closing Campaign.

London, Nov. 1.—In reply to an inquiry from the London office of the Associated Press, Richard Croker, from his home at Dundrum, Ireland, has stated that the McCarren dispatch is genuine.

New York, Nov. 1.—The principal topic of conversation in political circles today was the cablegram of congratulation from Richard Croker, former leader of Tammany hall, given out by State Senator McCarren, democratic leader of Brooklyn. Doubt as to the genuineness of the dispatch was expressed by Charles J. Murphy, the present leader of Tammany hall, who said the cablegram was contrary to the attitude of Mr. Croker all his life. Mr. Croker had always taught party regularity, declared Mr. Murphy.

William R. Hearst, who closed his up-state tour last night with six speeches in Buffalo, returned to New York today. From now until election day, Mr. Hearst will do all his campaigning in or near New York. This evening he will address sixteen meetings in the boroughs of Manhattan and the Bronx.

Charles E. Hughes will close his canvass of the up-state counties tomorrow. Tonight he and Secretary of State Root will speak at Utica.

Hearst Returns to New York.

William R. Hearst arrived here today on return from his final up-state trip of the campaign. He came through direct from Buffalo where he spoke last night. Mr. Hearst left his car in company with Mrs. Hearst, Clarence J. Shearn, Judge Samuel Seabury and Patrick E. McCabe, of Albany. He was very hoarse but said that otherwise he felt very well. When informed that the civil service reform association had announced that they sent to both Mr. Hearst and Mr. Hughes a letter, in which both candidates were asked to define their position in relation to civil service reform, Mr. Hearst said he had never seen the letter. Mr. Hughes' reply to the association's communication was published today.

Criminal Negligence Charged.

As a result of the letter sent yesterday by William R. Hearst to Judge Otto Rosalsky, charging gross criminal negligence on the part of the members of the board of elections, which resulted, he alleged, in the mutilation of petitions filed by candidates of the Independence league, MacDonald Dewitt, a lawyer in the offices of Clarence J. Shearn, appeared at the district attorney's office today, accompanied by witnesses, to testify in support of Mr. Hearst's contention. They are the men who made affidavit to the truth of the statements. Among them were Franklin Quinby, candidate for congress from the eighth district; Benjamin Berger, a candidate for assembly; Joseph Webber, who corroborates Quinby's affidavit; Godfrey Lehner, a candidate for the assembly, and Thomas F. Long, a senatorial candidate.

What Jerome Has to Say.

After the preliminary hearing, District Attorney Jerome said:

"Evidence of larceny has been presented, but the name of the culprit has not been established."

Mr. Jerome said that witnesses will swear to the depositions, whereupon summonses will be issued for the members of the board of elections in John Doe proceedings. It is expected that the members of the board will be examined before a magistrate tomorrow.

HUGHES AT NORWICH.

Norwich, N. Y., Nov. 1.—Charles E. Hughes and his party arrived here shortly before noon. He was met at the station by a throng of people, who cheered him as he stepped from his car to go to the Norwich club, where for nearly an hour he held a reception. Special excursions from Bainbridge, Smyrna and Sherburne brought hundreds of people from the towns and villages of the surrounding counties to hear Mr. Hughes. He spoke first at Clark's opera house and the second meeting was in the Academy of Music. Both meetings were well attended.

CLOSING DAY FOR HUGHES.

Syracuse, N. Y., Nov. 1.—The next to the closing day of the up-state campaign of Charles E. Hughes, the republican candidate for governor, began today with the departure from this city of the candidate on an early train for Earlsville, where the first speech of the day was delivered. He will be in Utica in time for the evening meeting, which is expected to be one of the most interesting of the campaign. Secretary of State Elihu Root will be one of the speakers at the Utica meeting and it has been given out that "he brings a message from Washington."

PUMPING STATION DISABLED.

Complaint was made by the Pennsylvania company to the waterworks department today that it could not get enough water to supply the shops and roundhouse and steps were taken to remedy the difficulty, which were partially successful. The pumping station operated by the company west of the city is out of commission owing to a breakdown of the machinery and it is entirely dependent upon the city service for the present.

MUST TREAT ALL ALIKE SAYS COURT

SUPREME COURT AGAINST THE AMERICAN EXPRESS COMPANY.

Cannot Refuse to Give One Competitor the Facilities in Exchange It Gives Others.

Indianapolis, Nov. 1.—The supreme court decided that express companies may not refuse to one such company the facilities and advantages in the exchange of business which are afforded its competitors.

The controversy was between the American Express company and the Southern Indiana Express company, which carries packages only on a single railroad. The American Express company was commanded to accept express matter from the Southern Indiana on the same terms that it does from the Adams and Pacific and other companies, except perishable property and property worth less than transportation charges, on which it may require the charges to be prepaid.

BRITISH MURDERER IDENTIFIED.

Finger Print System in United States Has Curious Results.

Washington, Nov. 1.—A curious result of the recent adoption by the United States army of the system of identification by finger prints, just reported to the war department, was the discovery in the person of a soldier at Fort Leavenworth of a British murderer for whom the Scotland Yard authorities have long been seeking. The man was a prisoner in the United States penitentiary, serving a five-year sentence for military crime. When the warden, following the general order to take the finger print records of all soldiers, he met with violent resistance from the British soldier, and the assistant who tried to make the record was knocked down. The warden sent copies of the prints to the police in a number of cities. Within a comparatively short time Scotland Yard reported that the man had committed an atrocious murder in Morta.

UTES SPLIT INTO TWO BANDS.

Quarrelsome Indians Have Divided in Wyoming.

Sheridan, Wyo., Nov. 1.—The Utes evidently have split into two bands. Telephone reports say that one band is on Bear creek, twenty miles southeast of Birney, Mont., annd that the other band is camped along Hanging Women creek in the Powder valley. Two officers and sixteen troopers arrived from Birney today. They report that the main command from Fort Keogh is at Asland and has seen no Cheyennes. Colonel Auggur broke camp at Sherive's ranch, forty miles north of Sheridan today. He was expected to reach Birney early this afternoon. Captain Williman and signal corps left Sheridan this morning for Birney, taking wire to connect the field forces with the telephone from Birney to Sheridan.

VESUVIUS STILL DISTURBS.

Heavy Rains Cause Large Avalanches of Mud to Slip Down Mountain.

Naples, Nov. 1.—The eruption of Vesuvius of April last is still causing devastating effects. A heavy storm which prevailed here during the last twenty-four hours has caused large avalanches of mud to fall from the sides of the volcano, carrying off part of the Vesuvian railway, blockading trains along the sea coast and burying large sections of ground in the vicinity of Vesuvius. The inhabitants of the villages were greatly alarmed, especially as the storm was accompanied by earthquake shocks.

FIRST KILLED WIFE THEN SELF.

Bodies of Connecticut Couple Found With Throats Gashed.

Shelton, Conn., Nov. 1.—The bodies of Charles Quazea and his wife were found today, dead in their home with their throats cut. The husband murdered his wife after a quarrel and then gashed his own throat. Jealousy was the cause of the trouble between the couple.

Quazea, who was a weaver, was 46 years old and his wife 40, and they came here a month ago from Hoboken, N. J. They leave five children, the youngest six years old and the eldest twenty.

BATTLE WITH BANDITS.

Officers and Robbers Fight in Washington—Two Men Killed.

Spokane, Wash., Nov. 1.—A special from Prosser, Wash., says:

"There was a desperate battle near Kennewick, yesterday between officers and burglars who robbed two stores in that town Tuesday night.

"The officers were led by Sheriff A. McNeil, of Prosser, who came on the robbers unawares in the bush. There were five or six in number who at once commenced firing. Marshal Michael Glover, of Kennewick, was instantly killed and Joseph Halsey, his deputy, was fatally wounded. Sheriff McNeil was shot twice but not dangerously hurt. After being shot the sheriff emptied his gun at the robbers, killing one and finally capturing another.

"The gang of burglars is thought to have had a rendezvous at Kennewick for the purpose of holding up a Northern Pacific train.

"The captured robber says he is Robert Layton, aged 16 years. He revealed the identity of the dead desperado as Jacob Lake, recently a convict in the penitentiary at Walla Walla.

"Layton says his home was formerly in Florence, Col.

SAW ABANDONED VESSEL.

Queenstown, Nov. 1.—The British steamer, Vedamore, from Baltimore October 20, for Liverpool, signalled this morning that she saw the British steamer Nemea abandoned and on fire in latitude 51 north and longitude 15 west. The crew of the Nemea with the exception of two men who were lost, were taken on board the Vedamore. The Nemea left St. John, N. B., October 16 for Manchester, England. She was commanded by Captain Shaw, built at Glasgow and owned by Thompson & Co., Liverpool. She was of 2,259 tons net register.

GOT $3,000,000 BY SWINDLING

Chicgo Police Nab Charles Norton Who Operated on Vast Scale.

COUNTRY HIS FIELD

All Sections of Nation Worked by Man Who Dealt Only in Bonds, Stocks and Securities.

Chicago, Nov. 1.—Charles Whitney Norton, said by the police and the postal authorities to be responsible for extensive swindling operations, is under arrest here and will be turned over to the federal officers by the local police who took him into custody. It is claimed that Norton defrauded people in all parts of the United States out of bonds and securities amounting to three million.

It is claimed by the officers of justice that Norton would obtain stock from any person who would trust him and agree to sell it in the market. He might, the police declare, sell the stock and he might retain it, but the result to the person owning the stock was the same. They would receive no money from Norton nor would the stock be returned to them. He was first taken into custody by the police three days ago and they held him without any charge against him until a search could be made for securities said to be held by him aggregating in value about $3,000,000.

Bales of Securities.

In his room were found bonds, stocks, abstracts of land titles, first mortgages and other negotiable paper, the greater part of which is thought to be genuine and worth almost $2,000,000. Other papers were found valued on their face at about $1,000,000 more, but their value is doubtful. It is claimed that Norton by selling and trading these securities, had made many thousands of dollars.

The postal authorities declare that they have been searching for Norton since January, 1905, when he disappeared from Detroit, Mich., ostensibly to go to London, England.

About two years ago Norton was in Elmira, N. Y., operating the American Wholesale Brokerage company. It is also claimed that he was arrested once in Troy, N. Y., and also in Rutland, Vt., where he served a sentence of one year in jail for the fraudulent use of the mails. He is also said to have done business in Toledo, O.

Would Return Nothing.

It is claimed by the police that Norton solicited stocks and land titles of any description to sell. He would never return the paper, nor, it was said, any money derived from their sale. When pressed by customers he informed them that he would go to London, England, in order to obtain a better market.

Titles and deeds to lands in Nebraska, Kentucky, Tennessee, Virginia and other states, running into thousands of acres, were found in Norton's possession. One deed describing fifty thousand acres of pine lands in Virginia and another describing twenty thousand acres in Nebraska appeared to be genuine. The stocks found in his possession are gold mining stocks, those of copper mines, insurance companies, railways and gas companies. The local authorities are unable to tell at the present time just what these securities have as an actual value.

Norton was today still held by the local police, but the postal authorities declared their intention of causing his arrest on a charge of using the mails to defraud.

WILL APPLY FOR ADMITTANCE.

State Organization Seeks Membership With General Federation.

Mrs. C. B. Woodworth has returned from Shelbyville, where she attended an executive committee meeting of the Indiana State Federation of Clubs, of which Mrs. Woodworth is treasurer. The meeting was called by the president, Mrs. O. P. Kinsey, of Valparaiso, and it was decided to make application for admittance to the General Federation of Women's Clubs. This will be done through Mrs. Clark, of Aurora, who is state secretary for the General Federation.

It will be remembered that at a joint committee meeting held in this city for the purpose of forming a new society from the I. U. L. C. and the State Federation of Women's Clubs, the committee organized, selected a chairman and secretary and then took a vote upon the consolidation and the name for such an organization. Upon the name the thirty women forming the committee split, ten of the federation refusing to vote either for or against the name which the majority decided would be best for the consolidated body to have. The ten "bolters" from the meeting still insist that no consolidated organization has been formed because the vote for the name was not unanimous. Officers of the I. S. F. C. are: President, Mrs. O. P. Kinsey, Valparaiso; vice president, Miss McIlvaine, of Vincennes; recording secretary, Mrs. W. F. Major, of Shelbyville; corresponding secretary, Miss Conlogue, of Kendallville; treasurer, Mrs. C. B. Woodworth, Fort Wayne.

The ladies were entertained by Mrs. Major while in Shelbyville.

RAILWAY CLERS STRIKE.

San Antonio, Texas, Nov. 1.—The railway clerks of the Southern Pacific railroad here walked out today. The strike of the clerks now extends from Houston to El Paso.

TEACHES FARMERS TO MAKE ALCOHOL

DR. WILEY UNDERTAKES EDUCATIONAL EXPERIMENT.

Manufacture of Denatured Alcohol Possible But Not Profitable on a Small Scale.

Washington, Nov. 1.—The department of agriculture, through Dr. H. W. Wiley, chief of the bureau of chemistry, has undertaken to educate the farmers regarding the manufacture of denatured alcohol. Two bulletins were issued today devoted to the description of the sources from which industrial or denatured alcohol may be obtained, the method of manufacture and to some uses to which it may be put, as well as statistics showing the possibilities in the development of the industry.

From Dr. Wiley's discussion of the subject, the conclusion is reached that the manufacture of alcohol on a small scale is not likely to prove profitable. Because of the regulations under which the farmer would be required to conduct his still if he engaged in the manufacture it is evident that he must be content with producing the raw materials and that he cannot look forward to becoming a practical distiller. The bulletin on the subject of sources and manufacture says:

"The principal uses of industrial alcohol are illumination, heating, motive power and the manufacture of lacquers, varnishes, smokeless powder, medicinal and pharmaceutical preparations, vinegar and ether. When industrial alcohol is made at a price at which it can compete with petroleum and gasoline, it doubtless will be preferred for the purposes above mentioned, because of its greater safety and more pleasant odor. Under the present conditions it is not probable that industrial alcohol can be offered upon the market at much less than forty cents a gallon of ninety-five per cent. strength."

Dr. Wiley expresses the belief, however, that by paying attention to unused sources of raw material and with improved methods of manufacturing and denaturing this price can be diminished.

REAL ESTATE TRUST COMPANY REOPENED

LOOTED PHILADELPHIA CONCERN RESUMES BUSINESS.

Under Presidency of Receiver Earle Hipple Company is Reorganized on Sound Basis.

Philadelphia, Nov. 1.—Under the presidency of George H. Earle, jr., the Real Estate Trust company of this city, which failed August 28, reopened for business today. The company failed because of financial irregularities on the part of Frank K. Hipple, its president, who before the failure committed suicide. Earle was appointed receiver and the concern opened under a reorganization plan perfected by him. More than $600,000 was deposited in the first hour of business.

Mr. Earle has accomplished what men of long experience considered almost a miracle in finance, it being the first case on record in this state where a big banking concern, looted of its assets, was rehabilitated in a short a time and with the unanimous consent of its creditors. It is also the first time that the assent to a reorganization proposition has been obtained from all the stockholoders and depositors, all other rehabilitations of banking concerns having been compelled to take recourse to the sixty-day legal notice and subsequently depending on the consent of a majority of the creditors. In this case, however, every depositor and stockholder signed a proxy to have Receiver Earle act for him and to this unique feature more than any other is credited the speedy resumption of business of the bank.

GIGANTIC DEAL GOING THROUGH

STUPENDOUS FINANCIAL AFFAIR IN PROGRESS.

Kentucky and Ohio Gas and Electric Light Consolidation is in Process of Formation.

Cincinnati, Ohio, Nov. 1.—As a result of a series of conferences now being held here one of the most gigantic financial deals ever swung in this section of the country will be put through before the first of the year.

Terms for the leasing of the Cincinnati, Covington and Newport Light and Traction company have been practically agreed upon and that property will probably soon pass into the control of the Columbian company, a holding corporation, formed under the laws of West Virginia. This company, which will have a capital of $75,000,000 will also purchase the control of the Union Gas and Electric company, of Cincinnati, the two Cleveland gas and electric properties, and own outright many thousands of acres of oil and natural gas bearing lands in West Virginia with pipe line to this city. The aggregate capitalization of the subsidiary companies will amount to between $160,000,000 and $175,000,.00.

NO DUTY ON BRITISH COAL.

London, Nov. 1.—The abolition of the export duty on coal which became effective at midnight, was the signal for the sailing this morning of hundreds of coal laden vessels bound for foreign parts. No less than fifty steamers left the Bristol channel alone.

MOODY DECLARES BRYAN IS RIGHT

Trusts are the Paramount Issue in the Present Campaign.

CABINET MAN SPEAKS

Asserts in Sensational Terms That Great Trusts are an Evil—President Wants House.

Boston, Nov. 1.—In political speeches at republican rallies at Beverly and Salem last night, Attorney General W. H. Moody, said he was investigating "the great and powerful coal and oil combinations," and that if he found evidence of illegal combinations he would "proceed without regard to personal or political consequences."

Mr. Moody said: "A few weeks ago Mr. Bryan said that the trusts were the paramount issue. I am not quite sure that he is not right. He expressly congratulated President Roosevelt in the step he had taken on the enforcement of the anti-trust laws.

"We are in the midst of great industrial activities and prosperity. Great evils are arising out of this condition, and President Roosevelt is determined to remedy it, if a remedy can be found.

"The great industries are no longer conducted by the individual but by organized capital. The organization of labor and the organization of capital are here to stay, but we have the right to ask both that they shall obey the laws of the land.

Has Seen the Evidence of Vast Crime

"When the combination of wealth obtains great power, as it will, it destroys the individual initiative, disturbs the former growth of commerce and some times the government. I, myself, have seen written on a sheet of paper the price of killing off a competition. I have seen the cost of driving out of business the bold independent and the division among all the confederates. It is not wise that the people let any combination like this exist."

The attorney general continued:

"Mr. Havermeyer, the sugar man, says the tariff is the mother of trusts. It is not the tariff that is the mother of trusts—it is the railroad rebate that is the mother of trusts and of its collateral relatives."

Mr. Moody, who was speaking particularly for the re-election of Representative August P. Gardner in the Sixth Massachusetts district, explained that he was there at the expressed and earnest request of President Roosevelt.

What Roosevelt Wants.

He added: "The president has made it manifest that it is his earnest desire that the republican nominees should be elected and that the next house of representatives should be in harmony with him."

After pointing out the results that would follow the election of a democratic house, the attorney general said:

"Can any sane man doubt under such circumstances that the whole power of the house of representatives will be exerted to thwart the president in his measures, which he proposed and to render the rest of his term of office entirely insignificant?"

FAMOUS TERRORIST MAKES HIS ESCAPE

HEAD OF FIGHTING ORGANIZATION FLEES FROM SIBERIA.

Gersuchnin, Condemned to Perpetual Imprisonment Gets Away and Others Will Follow.

St. Petersburg, Nov. 1.—Gersuchnin, one of the most famous terrorists and head of their fighting organization during the Sipiaguine and Plehve regimes, has escaped from Siberia, concealed in a water cask.

Gerschunin, who is a Jew, was condemned to perpetual imprisonment for complicity in the assassination of Minister of the Interior Sipiaguine and the attempt on the life of M. Pobedonosteff, late procurator general of the holy synod. He was sent to the silver mines at Akatui, on the Mongolian frontier of Siberia, when the Schlusselberg fortress was closed as a prison for political offenders February 13. One of Gerschunin's comrades, Melnikoff, escaped from the mines two months ago and the governor of Akatui says he cannot guarantee the safe keeping of Sasanoff and Sikorifsky, the other terrorists implicated in the assassination of M. Plehve because the revolutionary agents who arranged the escapes of Gerschunin and Melnikoff are lavishly supplied with money and have the sympathy of the whole population.

GIANT IS A FORGER.

Ohio Colossus Gives Himself Up to Minneapolis Authorities.

Minneapolis, Nov. 1.—George A. Daly, of Painesville, O., seven feet tall, has been locked up at central station to await the arrival of the Ohio officers, who want him on a charge of forging a check for a small amount. Daly called at police headquarters a week ago and asked to be locked up, confessing his crime, but Chief Doyle thought the man was crazy and told him to come back in a week. Daly came back and was locked up, the Painesville police having been notified and replied that he was wanted.

COURTED DEATH TO PLEASE CROWD

AERONAUT THOMAS WENT MILE HIGH WITHOUT BASKET.

Millionaire Balloonist Takes Long Chances With Refractory Airship in South.

Augusta, Ga., Nov. 1.—Dr. Julian P. Thomas, the millionaire amateur aeronaut, of New York, had perhaps the narrowest escape in the history of American balloon ascensions here yesterday afternoon. He was carried thousands of feet in the air, clinging to the network of a runaway balloon, with neither basket below him nor ballast to aid him.

The truant balloon went entirely out of sight, and the hundreds who desperately chased it in automobiles and buggies lost the trail for more than an hour. Finally, when the pursuers had about given up hope, news reached here that the balloon had come to the ground six miles from town. Thomas, who had cast off his basket rather than disappoint the spectators, was dragged about a cotton field in making a landing, but escaped with a bruised arm.

Tells His Experience.

On his return to this city Dr. Thomas gave the following account of his experience:

"I came to Augusta to make an ascension and I made it in spite of the fact that the balloon burst before it left the ground. For three days and nights myself and my men worked hard to fill the balloon with gas. Just as we had accomplished this difficult task the wind became so strong that it took hundreds of bags of sand and forty men to hold it on the ground. In spite of their combined efforts the balloon swayed and tossed backward and forward, beating itself on the ground and against electric wires of every description. Finally we succeeded in freeing it from the wires and drawing it onto a large flatboat on the canal, and held it steadily there by an army of boys and men.

Casts Off Ballast.

"There was nothing to do but to ascend immediately or give up the ascent entirely, as there was no possible way in which the balloon could be successfully repaired in the south. I was determined to make the attempt, whatever the cost. I had all the ballast cast off immediately and ordered the men to turn loose, but the balloon would not ascend. I then disconnected my anchor and then my heavy guide (I had two.) Next I disconnected my basket and climbed into the rigging, hitching on one bag of ballast. I gave the word to let her go, and up I went like a rocket. Unfortunately my second guide rope caught on a post, and I was being drawn on the tops of the buildings at the rate of thirty miles an hour. There was only one thing that could save me. This was to cut the guide rope. This I instantly accomplished, as I had carried in my mouth a long open knife as a precautionary measure. Instantly I had done this I shot up to a height of 5,000 feet.

Hangs by One Leg.

"For the first time in my ballooning experience I felt rather uncomfortable, to say the least, for I was hanging on one of the ropes of the rigging by one leg. At the height of 5,000 feet I made myself more comfortable and looked down upon Augusta. As I had no ballast but my shoes, I removed them and tied them to be used when necessary.

"When the balloon started to descend I again struck the rapidly moving wind currents. I was descending nicely until the balloon passed over some body of water. The gases became cold and contracted and the balloon dropped to the earth with frightful velocity. I landed on my feet and attempted to pull my rip cord. I could not break it to save my life. When my feet touched the earth my weight was of course taken from the balloon.

Hangs by One Hand.

"Just at that moment a powerful gust of wind struck it, and I was hurled into the air five hundred or a thousand feet, hanging by one hand. I climbed back into the rigging. The balloon again gradually descended, but as it did so I became entangled in the network. I could at that time have cut myself loose, but did not care to lose my balloon, so I allowed myself to be dragged a quarter of a mile at a speed faster than the average horse can run. In the meantime the gas was pouring out and I gradually got the balloon under control and drew it to the ground and released myself."

INSPECTOR BURR WAS WITH TRAIN

HE AIDED IN EFFORT TO TRAP LAKE SHORE BANDIT.

Vice President Schaff Discusses Recent Plot—Search Goes Forward Vigorously.

Postoffice Inspector A. R. Burr, of Fort Wayne, was one of the officials who aided in the futile attempt to trap the unknown bandit who a week ago, under threats of blowing up a train, demanded $1,200 of the Lake Shore Railroad company. The unknown desperado had written Lake Shore officials ordering them to have a sack containing $1,200 in gold dropped off a certain train at the signal of two pistol shots which were to be fired close beside the tracks somewhere between Chicago and New York on the night of October 24. In the effort to capture the fellow the railroad company made up a "dummy" train, loaded with officers heavily armed, among whom was the Fort Wayne postoffice inspector. The signal shots were fired but a short distance from Chicago, the train was hurriedly stopped and officers made a chase for the bandit, but he had such a start that he escaped in safety.

Has Little Hope.

General Manager E. A. Handy, of the Lake Shore, is not optimistic over the prospects of arresting the bandits. The letters which he received from them bear no clew to the identity of the senders There were two letters and a postal card, all of which were printed with a lead pencil so as to conceal the hand-writing of the author.

"It is not true that the writer of the letter demanding that $1,200 in gold be thrown from the rear of the Lake Shore limited said that he would be somewhere in the vicinity of Pine, Ind.," said Vice President Schaff, of the New York Central lines. "If we had had any clew to the place where the signal of the pistol shots would be given we could have quickly sent out scores of men hours in advance and surrounded the place. The anonymous letters which were received merely said that unless we threw $1,200 in gold from the train when the signal was given the train would be blown up.

"While we did not believe that the threat would be carried out, we felt that we owed it to our patrons to send out a train made up exactly like the Lake Shore limited, running on its regular time, with a large number of men armed. To aid in catching anybody who gave the signal for the train to stop, bloodhounds and searchlights were sent along. The dummy train left here under orders to go as far as Buffalo, unless stopped this side of there by the signal of two revolver shots. It would be unnecessary to send the train beyond Buffalo, for nobody would attempt to hold it up in broad daylight."

Every foot of the ground for miles around Pine, the little station twenty-three miles east of Chicago, where pistol shots that were to be the signal for the throwing off of the money were fired, was searched. The only result was the finding of a watch, of the dollar variety, where the fugitive had stumbled and fell while fleeing from the pursuing detectives.

Lake Shore officials tried to trace the identity of the man through the watch, but this was impossible. The time piece was of such a cheap variety that no record is kept of them, and while it might become an important piece of evidence in case of an arrest, it is absolutely useless in tracing the fugitive.

G. B. BURHANS TESTIFIES AFTER FOUR YEARS.

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble. After Baals' remains had been brought to Fort Wayne for interment examination disclosed that death had been due to blows inflicted upon the head, and the prosecution followed. Dr. W. W. Barnett and Dr. H. A. Duemling, who held a post mortem examination upon the remains, were called to Kentucky to testify at the trial.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

THE SUNDAY SCHOOL

LESSON V, FOURTH QUARTER, INTERNATIONAL SERIES, NOV. 4.

Text of the Lesson, Matt. xxvi, 17-30. Memory Verses, 26, 27—Golden Text, I Cor. xi, 24—Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1906, by American Press Association.]

When the first Passover was kept Pharaoh was oppressing the people of God and seeking to destroy them or at least prevent them from multiplying being the devil's agent to that end. At the time of this last Passover, for here it really ended, being fulfilled in Christ, the devil's agents are Judas Iscariot and the chief priests and scribes, not avowed enemies, like Pharaoh, but professedly believers in the only living and true God. The object of hatred is now not the people of God, but God Himself, God manifest in the flesh. This age will end with the kings of the earth and their armies gathered together to make war with the same person (Rev. xvii, 14; xix, 19-21.) Notwithstanding all the hatred of the devil and the raging of the nations, God quietly works out His eternal purpose and fulfills His word (Ps. ii; Isa. xiv, 24). Knowing all that was before Him, our Lord continued from day to day teaching in the temple and at night went out and abode in the Mount of Olives (Luke xxi, 37). In due time came the day of unleavened bread, when the passover must be killed, and He sent Peter and John, saying, Go and prepare us the passover (Luke xxii, 7, 8). We are not told the names of the two whom He sent to bring the colt (Matt. xxi, 1), but they may have been the same. Contrast those who delight to do His will with His enemies, who want to kill Him, and remember that He said, "He that is not with Me is against Me" (Matt. xii, 30). The disciples being sent do not start off as if they knew everything, but ask meekly, "Where wilt Thou that we prepare?" (Verse 17.)

Those who truly desire guidance will very often ask the questions, "Where wilt Thou?" "What wilt Thou?" (Acts ix, 6). A good question is found in Jer. xlii, 3, "Shew us the way wherein we may walk and the thing that we may do," but in that case the questioners were not honest. To those who desire it sure guidance is vouchsafed in such passages as Ps. xxxii, 8; Isa. xxx, 21. Both Mark and Luke give our Lord's reply more fully than Matthew. He makes the way very plain for them. The way to the city they knew; then the man bearing the pitcher of water would be easily recognized, and by him the house is reached; then they have only to ask for the guest chamber, and the rest they knew how to do. At his birth there was no room in the inn or guest chamber (the word is the same and only used in these two connections); now there is a place for Him and His. The disciples found as He had said (Mark xiv, 16; Luke xxii, 13). So it was when they went for the colt, and so it always has been and will be in reference to all that He has said. We may depend upon it that all Scripture shall be fulfilled exactly as it is written, and to all eternity it shall be, all shall be, just as He has said.

As he sat down with the twelve in the evening at the feast He said that He had greatly desired this, but would not any more eat of it till it should be fulfilled in the kingdom of God (Luke xxii, 15-18). As at the first Passover Israel was delivered from Egypt, when the kingdom comes Israel shall be delivered from all nations and placed in their own land, never to be pulled up or scattered any more.

Some time during the Passover Jesus rose from supper, and, taking a basin of water and a towel, He washed and wiped the disciples' feet. The full account of this is found in John xiii, 1-17, with the lessons He sought to teach them. How he was enabled to do this menial act is, I think, found in the words, "Knowing that the Father had given all things into His hands and that He was come from God and went to God." Why He did it is seen in the words, "I have given you an example that ye should do as I have done to you." If redeemed by His blood we are to follow His steps in all love and humility, believing that all things are ours in Him and that He has given us the glory which the Father gave to Him (John xvii, 22, 24; Rom. viii, 32). Only as we believe that we are what he says we are by virtue of His great sacrifice will we hold ourselves ready for any manner of service, however lowly, that He may be glorified.

Some time during the evening, either before He instituted the supper which we call the Lord's supper, or the communion, or else after He had given the bread and before He took the wine, He sorrowfully announced that one of them would betray Him. Each one asked, "Lord, is it I?" John, leaning upon Jesus' bosom, asked at Peter's suggestion who it was, and then Jesus by a simple act, which would necessarily be observed by all, pointed out Judas Iscariot, and, saying to him, "That thou doest do quickly," Judas went immediately out, and it was night (John xiii, 23-30). It was the last night on earth for Judas, for ere another night he was where morning never dawns. Jesus said of him that it would have been good for him never to have been born (verse 24).

The supper by which we show forth the Lord's death till He come (I Cor. xi, 26) was partly if not fully instituted after Judas went out. It may have been that Jesus did not take either the bread or wine till Judas had gone. But, even if Judas partook of one or both, it brought him no blessing. Many still partake of the communion who only eat and drink judgment to themselves (I Cor. xi, 29).

SOME ALARM FELT FOR HOUSE.

That the republican managers of the congressional fight do not feel satisfied with conditions in these closing days of the campaign is not to be concealed. They fear the majority of the republicans will be wiped out and the sixtieth congress show an adverse majority. In the apathy which is reported throughout the country by republican spellbinders the republican congressional campaign committee sees the danger of losing control of the house. A rallying cry has been sent forth begging republicans to heed the danger and wake up. This call to the polls has been sent out on postal cards:

> To republicans—There is great danger through apathy of losing the next house of representatives.
>
> It was lost in 1890—an off year between presidential elections—and in 1892 the democrats gained president, senate and house, and the people got the Wilson-Gorman tariff and ruin.
>
> This is an off year between presidential campaigns, and through apathy there is danger of repeating the experience of 1890 and 1892.
>
> Democratic successes on November 6 means an end to prosperity. Don't risk it, republicans.
>
> Don't fail to vote, and see to it that your neighbor votes with you.

The foregoing cry of distress may help some, but if the republican majority in the house is in real danger, even this perfervid appeal to the voters will hardly avail to ward off the impending catastrophe.

A squad of anarchists who gathered in New York Monday night to laud the leed and extol the memory of the unspeakable wretch who murdered McKinley were promptly run in by the police when the talk got to the degree of heat that brought it within the law's scope. The Goldman woman was among those arrested. The public would unqualifiedly approve any penalty calculated to put the entire party of reds now under arrest for a long time away in some place. The constitutional guarantee of free speech in this land should not be interpreted to tolerate counselings to murder.

Secretary Bonaparte likens the great trusts to the larger and stronger pigs in a pen which drive the smaller and weaker from the trough. He would regulate the depredatory hogs. Mr. Bryan doubtless would retort to this that when a hog has waxed so fat and strong as to rule the pen he is big enough and fat enough to be devoted to the ultimate purpose for which a hog is raised. Not much to be got out of any effort to "regulate" the big pigs.

Republican campaign managers in New York are claiming the election of Hughes to the governorship by from two hundred thousand to a quarter of a million majority. The democratic managers voice the confident belief that Hearst will sweep the state and show a margin just about as large. The discrepancy being small, the onlooker from the outside may take for granted as truth the general word that they're having a mighty close and desperate fight down in New York.

The flow of campaign oratory is about exhausted and if you hanen't fully made up your mind how to vote, you will have to finish the job without the aid of the spellbinder.

Those refractory Utes out in Wyoming appear to be diligently laboring to qualify for the thirty-third degree in the Glorified Order of Good Indians.

COLLEGIANS TO THE WORKHOUSE

Lexington, Ky., Students Sentenced for Hallowe'en Pranks.

Lexington, Ky., Nov. 1.—Five collegians who indulged too vigorously in Hallowe'en pranks last night were sent to the workhouse today to await their trial. They are Shelby Jett, jr., of Richmond, Ky., T. R. Veal and Thomas Swigert, of Maysville, Ky.; George Bogard, of Golden Pond, Ky., and Marion Cheek, of Richmond, Ky. All are cadets of the state college battalion and they will stay in the workhouse till tomorrow when they will be put on trial on charges of breach of the peace by assaulting officers in the general riot last night when the patrolmen tried to stop disastrous Hallowe'en pranks. The students beat up the officers pretty badly and several shots were fired. Today they could not give bond and all were sent to the workhouse. Swigert and Veal are lieutenants of the battalion.

FOUND INFERNAL MACHINE.

Strange Attempt to Kill Railway Engineer at Akron, Ohio.

Akron, O., Nov. 1.—Andrew McIntosh, aged 40, a Baltimore and Ohio engineer, had a narrow escape from death by an infernal machine. A 38-caliber revolver, packed with explosive powder in a small box, and ten sticks of dynamite were concealed in a tool box in his coal house. The trigger of the pistol was fastened to the lid of the box. When McIntosh opened the lid the machine let go and the bullet struck McIntosh in the left cheek, imbedding itself. McIntosh was burned by the powder and the dynamite was thrown to all parts of the coal house, but did not explode.

McIntosh's injuries are not serious. He says he knows of no enemies. The police have a clew. Had the dynamite exploded great damage to property would have followed as many houses are in close proximity.

PLAN GIANT BATTLESHIP.

Secretary of Navy Receives Plans for War Monster.

Washington, Nov. 1.—Plans of the proposed giant battleship were submitted to the secretary of the navy today by constructors who have availed themselves of the opportunity to compete for the battleship. Very little is known of any plans for the gigantic ship, which, it is assumed, will have a displacement of at least twenty thousand tons. All plans are to be submitted to congress, which is to pass on the navy department's action. Indefiniteness marked every part of the appropriation bill relating to the new warship, which is described by the bill as "a first-class battleship, carrying as heavy armor and as powerful armament as any known vessel of its class, to have the highest practicable speed and greatest possible radius of action and to cost, exclusive of armament and armor, not exceeding $6,000,000.

It is not positively known who did the shooting and no arrests have been made.

Soon to Assume Pastorate of West Jefferson Street Church of Christ.

Rev. R. O. Miller, who has just been called to the pastorate of the West Jefferson Street Church of Christ to succeed Rev. E. W. Allen, will assume the duties of the pastorate November 11. He comes from Pennsylvania and is a young clergyman of much promise who made an excellent impression when he occupied the local pulpit some weeks ago.

REV. R. O. MILLER,
Who Comes to the Pastorate of the West Jefferson Street Church of Christ.

Rev. Mr. Miller is 25 years of age and a graduate of Yale in the class of the present year. He is a native of Wellsburg, W. Va., and is descended from fine old Virginia lineage. His preliminary education was received at a West Virginia normal institution, graduating later with the degrees of B. A. and M. A. from Bethany college and with the degree of B. D. from Yale university. Rev. Miller won many college honors, having been the youngest man in his class at Bethany and the youngest man who ever took a B. D. degree from Yale.

Dr. Crambiet, of Bethany, refers to Rev. Miller as "a young man of marked ability, strong personality and superior scholarship." He was pastor of a Church of Christ at Pittsburg for two years, where the membership was doubled twice in that time, and the clerk of the church pays him this tribute: "We hold Bro. Miller in loving remembrance that is not the lot of every minister."

Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." DYNAMITE FOR WEDDING JOY.

Madison, Wis., Nov. 1.—Charles A. Roberts, living on a farm near Stoughton, draws the line at the use of dynamite by charivari parties. To celebrate Roberts' marriage some of his friends gathered at his home Sunday night and exploded several sticks of dynamite, wrecking part of the house. Roberts went to Stoughton and swore out warrants against four young farmers charging them with malicious destruction of property, an offense which carries a grave penalty in this state.

WANTS 5,000 LABORERS.

Southern Pacific in Need of Men to Get Ready for Rail War.

San Francisco, Nov. 1.—The Southern Pacific wants five thousand laborers. This is the statement of one of the local officials. Orders have just come from Harriman to hasten the development of the Pacific slope lines. Within the next two years over $25,000,000 will be spent in the construction of lines on the Pacific coast by the Harriman system. It is the preparation for the great struggle in railroad competition that is coming. With Hill on the north and the Gould line creeping across the continent. Harriman realizes that it will mean a great fight and that the life of the big systems will depend on the completeness with which they are equipped with feeders. Hence, at every available point small roads are being absorbed, others are being built and the Southern Pacific is developing all territory possible to get ready for what Harriman calls the "age of railroad competition."

WOLF & DESSAUER.

A Sad Story

In the little town of Fishbrook, Pike county, Ills., there lives a mother whose sole aim is to make a happy home for her children and husband. She was always cheerful, but little did her loved ones know how she suffered continually. In the solitude of her room she would weep and pray for some relief from the pains that racked her. Even the effort to climb the stairs caused her intense suffering, gasping for breath, palpitation of the heart and dizziness. How she ever struggled through her household duties she never knew. She never realized her condition until she was unable to rise from her bed.

Then came the fear of a large doctor and medicine bill, and she resorted to simple home remedies to avoid them, until a neighbor who had been afflicted in much the same manner, suggested the old Quaker Remedy, Herb Extract. Today, Mrs. Nancy Kurfman is an entirely well and strong woman, and to use her own words, she said:

"While I had known for years of Quaker Herb Extract as a specific for stomach, liver and kidney troubles, I do not believe I would have thought of sending to the drug store for it if my neighbor had not reminded me. Life looks entirely different to me now. I am always cheerful, do all my work and still find a little time to go to my neighbors and help them."

This medicine has proven all claims made for it by the Great Dunn. Quaker Herb Extract is for sale by your local druggists.

Green Pepper Omelet—Cut a sweet green pepper in halves, lengthwise, and remove the seeds. Then cut the rest of the pepper in tiny shreds. Put a teaspoonful of butter in the omelet pan, and, when hot, add the pepper and cook about five minutes without browning, stirring meanwhile, that all may be uniformly softened. Have ready in a bowl four eggs, a scant half-teaspoonful of salt, and a dash of pepper, beaten until a full spoonful can be taken up. Turn the egg over the pepper, shake the pan, or pick up the cooked egg with a fork, to let the uncooked mixture down onto the pan; when the egg is lightly set, roll, and turn onto a hot dish. (Janet W. Hill.)

Nut Loaf—Crumble the inside of stale white bread, and cut the crust fine. Then dry the whole slowly for two hours in a warm oven. Use a granite pan and stir the crumbs occasionally. Dry the crumbs without browning them. To three pints of crumbs, measured before drying, add one teaspoonful of salt, one tablespoonful of minced parsley, one tablespoonful of dried sage leaves, crumbled fine before measuring, half a teaspoonful of black pepper, one-fourth of a teaspoonful of cayenne, one-eighth of a teaspoonful of summer savory, one pint of celery (cut fine or ground), and one sour apple in thin bits. Melt one-third of a pound of butter, and in it fry for five minutes one onion of medium size, chopped fine. Pour this over the other ingredients, and mix thoroughly. Beat three eggs. Add one pint of milk, and pour over the mixture. Let stand to soften the crumbs while three cups of nut meats—pecans, filberts, and Brazils—are ground fine. Reserve one tablespoonful of the ground nuts for the sauce, and mix the rest into the crumbs. When the whole is well mixed shape it into a loaf four inches wide and three or more inches thick. Butter a perforated tin sheet, set the loaf upon it, and set to cook in rather a slow oven. Bake one hour and a half, basting often with butter, melted in hot water. Serve on a hot platter. Garnish with slices of orange and parsley. Serve the sauce in a separate dish. This will serve about a dozen people. (Boston Cooking School Magazine.)

Sauce for Nut Loaf—Melt three tablespoonfuls of butter in an omelet pan. Add a tablespoonful of chopped onion, and half a sour apple cut in thin bits. Then add two rounding tablespoonfuls of flour, and cook to a clear brown. Add a pint of milk and a cup of hot water, in which the glaze from the baking pan has been melted. Stir until boiling. Then add the tablespoonful of chopped nut meats left for the purpose, one tablespoonful of lemon juice, and half a teaspoonful of salt. (Ibid.)

Wisdom Cakes—Select good sized dates and with icing mark the features of owls on each, cutting ears into the dates. Press these onto fresh icing placed on oblong molasses spiced cakes and place citron on to represent branches, then form feet with chocolate icing. (What to Eat.)

Sweets—Pick over and remove stems from one pound of figs and stones from one pound of dates. Mix fruit with one pound English walnut meats (or a combination of nut meats can be used) and force through a meat chopper. Work, using the hands, on a board dredged with confectioners' sugar, until well blended. Roll to one-fourth inch thickness, using confectioners' sugar for dredging board and pin. Shape with a small, round cutter, first dipped in sugar, or cut with a sharp knife, in three-fourths inch squares. Roll each piece in confectioners' sugar, and shake to remove superfluous sugar. Pack in layers in a tin box, putting paraffine paper between each layer. (Fannie M. Farmer.)

GROOMING COUNTS

But it cannot make a Fair Skin or a Glossy Coat.

Women with good complexions cannot be homely. Creams, lotions, washes and powders cannot make a fair skin. Every horseman knows that the satin coat of his thoroughbred comes from the animal's "all-right" condition.

Let the horse get "off his feed" and his coat turns dull. Currying, brushing and rubbing will give him a clean coat, but cannot produce the coveted smoothness and gloss of the horse's skin, which is his complexion. The ladies will see the point.

Lane's Family Medicine

LAD HELD FOR THEFT.

Caught Trying to Sell a Stolen Bicycle—The City Court.

James Geary, recently arrested with several other boys for turning in false fire alarms and allowed to go on his good behavior, was apprehended last night by Patrolman Majors for stealing a bicycle and the case was continued for a week in the city court under a bond of $200.

Nick Wiess, one of the old time drunks said he had a job at Lima, Ind., and showed a return ticket. This saved the $100 and costs the judge promised him the last time he was up for drunkenness. He got an hour to leave the city.

Frank Antrum, a tramp printer, charged with drunkenness, was told to leave town in an hour.

The case against Constantine McKenzie, charged with failure to provide for his wife, was continued until tomorrow.

SPOOKS LUG OFF GATES AND STEPS

PROPERTY DAMAGE IS APPARENTLY VERY SMALL.

Police Kept Hustling on Hallowe'en But No Arrests Were Found Necessary.

There was only one report of missing property filed at police headquarters and that consisted of the announcement that there was an iron gate on top of the cannon at Old Fort Place which the owner could have by proving property.

While the spooks in celebration of Hallowe'en last night lugged off a lot of door steps, gates and other portable property there were no serious depredations in so far as the police department has been advised. Most of the benches in reservoir park were thrown into the lake last night and ice formed around them during the night.

This only gave the city employes a chance to abuse the ghosts and they performed the duty in the most artistic style. There was more or less breakage.

A number of the stands in the market place were overturned and the work was that of a lot of young girls who were chased by Patrolman Ben Elliott, but made their escape. The police were kept bustling up to midnight but no arrests were found necessary. Somebody called the fire department to the Hayes hotel on South Calhoun street and while it was said sparks were seen coming from a chimney it is believed that the spirit of devilment that characterizes Hallowe'en doings was responsible for the alarm.

The streets were covered with corn and confetti this morning and many householders were busy righting up things that had been disturbed but most of the articles that had been removed were found and aside from a little work and some annoyance to householders there was not much doing.

A JOKE FOR SMOKERS.

Try It On Your Bald-Headed Friends and Have a Laugh.

If you smoke a cigar that burns with good solid ashes that will not fall off until the cigar is half smoked up, such a cigar as the Wadsworth Bros.' Chicos, sold by Ranke & Nussbaum, you can have a good joke on some bald headed friend.

When there is an inch or two of ash on the end of the cigar just let it fall on that bald head and see how high it can jump. The ashes are not hot enough to burn, but they are warm enough to be felt.

The Chicos are a real ten cent Havana filled cigar that Ranke & Nussbaum sell for a nickel, and is the only 5c cigar where the ashes are firm and solid like those of expensive grades. You will enjoy a Chico anyway, so try one and see how good it is.

Olds-Hull.

One of the largest affairs of the season and the most brilliant in point of fashionable attendance was the reception at the residence of Mr. and Mrs. L. O. Hull, last evening, which followed the marriage at 6 o'clock of their daughter, Clara Louise, to Mr. Norman E. Olds, son of Mr. and Mrs. Charles L. Olds. Receiving with the bride and groom were their parents while assisting ladies in both parlors and dining-room, the prettiness of decorating and the music from Reineke's orchestra, made a most attractive setting for the loveliness of the bride herself. The bride departed from the customary fashion of wearing pure white and wore a touch of delicate rose color, extremely becoming to her. The bridal gown was fashioned of a white lace robe, hung first over chiffon and under that a shell pink silk. The veil of tulle was fastened to the hair with a little wreath of small pink rosebuds and pink rosebuds and maidenhair fern composed the bouquet which was tied with white tulle. The bride's ornament was a necklace, a wedding gift from the groom. Miss Mabel Hull, who was her sister's honor maid, looked handsome in a Nile gree chiffon, made over silk of the same shade and trimmed with duchess lace. Miss Hull carried white chrysanthemums tied with tulle. There were two little ribbon bearers attending the bride at the ceremony, which was performed by Rev. H. B. Master. They were Elizabeth Bradshaw and Georgiana Hudson. Both children were in dainty white from the tips of their shoes to the white ribbon bows on their hair. Their dresses were of fine linen made with much hand needlework. They led the bridal procession and stretched white and pink ribbons to the music room, where, under a figure of Cupid and a mass of smilax and ferns, the bride left her father and joined the groom, who with his brother, Percy G. Olds, was awaiting her coming. Only immediate relatives were present at the ceremony. Reineke's orchestra supplied the music, the marches from "Lohengrin" and by Mendelssohn being the selections. Supper was served immediately after congratulations, with Mrs. Schoemaker catering. The dining-room was entirely in red. Over the table was an umbrella shaped mass of red tulips with enough smilax to suggest foliage. From the center hung a large single tulip whose leaves half hid an electric bulb. Below on the table stood a basket of Richmond roses and at each place was a crystal candlestick with a red candle and red shade casting soft color over the table. On the sideboard and on the mantel were more roses and an especially beautiful contrast to the color plan was the small fern room which opens from the dining-room and which was filled with beautiful varieties of ferns. Still another plan which Mr. Hull designed and carried out for the comfort of the guests was a temporary room, made by canvasing the entire side porch from the outside air and then opening windows and doors from the parlors into it. The floor was covered with rugs and the Japanese lanterns lighted it. The decorations of the parlors and hall were in pink and white, furnished by chrysanthemums and carnations. Above the chandeliers hung dozens of lovely butterflies at different heights. Smilax was entwined about the chandeliers and vases of flowers on mantels lent the color. The grill work in the arches between the rooms was filled with pink and white 'mums and smilax. During the reception hours Mrs. Percy G. Olds, Miss Marjorie Olds, a sister of the groom, Miss Jean McLachlan, of Schenectady, N. Y., a cousin of the groom, and three girl friends of the bride, Mrs. Oscar Brokaw, Mrs. Henry O. Bruggeman and Mrs. Gibson Sisco, assisted. In the dining-room at the table from which ices and wedding cakes were served were Mrs. T. R. Cook and Miss Van Sweringen. Miss Aime Rothschild, Miss Ruth Evans, Miss Eliza Hanna and Miss Helen Harper assisted in serving. Mr. and Mrs. Olds left last night for their future home in West Hartford, Conn. The bride is a lovely young woman in appearance and character. She attended the public schools and Oxford college. Since leaving school the bride has devoted herself to her home and to pursuing her art studies for which she has much talent. For traveling Mrs. Olds wore a dark blue broadcloth tailor suit with hat of blue velvet and light blue wings. Mr. Olds is a Harvard man and a civil engineer. He is employed by the highway commissioner of Connecticut.

Gerke-Becker.

The handsome home of Mr. and Mrs. A. C. Becker, 425 West Williams street, was the scene Wednesday evening of a beautiful wedding, when their daughter, Emma Marie, became the bride of Mr. Ernest C. Gerke. The ceremony was performed by Rev. Philip Wambsganns at 7 o'clock, in the presence of about fifty guests. Every detail of the wedding was in good taste and carried out with pretty effect. One end of the living room was filled with palms and ferns, while a large arch had been erected at the entrance to the bay window. This arch was covered with smilax, in which were pink and white chrysanthemums alternating with tiny incandescent lights. Below was a white covered footstool on which the bride and groom knelt at the close of the service. The bride looked particularly well in a beautiful bridal gown, a lace robe made over air-line cloth with white taffeta underneath. The gown was made with a train, high neck and elbow sleeves and girdle of satin dotted with rhinestones. A tulle veil was fastened to the hair with an aigrette. A shower bouquet of white rosebuds, from which hung loops and bows of baby ribbon, and a handsome brooch, the gift of the groom, completed the bride's costume. Miss Clara Scheumann was maid of honor. She wore a white net over pink taffeta and held pink chrysanthemums. Miss Lydia Trier, bridesmaid, was in white. Miss Trier's gown was white lace over white silk with a pink satin girdle. Her flowers were white chrysanthemums. The bridal party walked between wide satin ribbons. Two little flower girls, Verna Lang and Clara Wiebke, wore white dresses and carried baskets of roses. Theodore H. Becker, brother of the bride, was best man. As the bridal party came down stairs music was furnished by Daseler's orchestra. The bride walked with her father, who gave her away. "Hearts and Flowers" was played during the ceremony and the orchestra furnished music afterwards during the wedding dinner, which was served under the direction of Mrs. W. A. Evans. The dinner table was festooned in smilax and in the center was grouped white chrysanthemums with their own foliage. The place cards were water color drawings. The color scheme of the room was also in green and white and ferns and chrysanthemums were used in decorating. All chandeliers were trimmed with smilax and archways between doors and the stairway were decorated with smilax. Both carnations and chrysanthemums were used in the rooms, upstairs and down. The wedding guests were served dinner on small tables and only the bridal party and the parents of the bride and the groom's mother occupied the dining room table. Miss Louise Aumann served punch during the evening. Mr. and Mrs. Gerke did not go away, but have gone to their residence, 619 Gay street, where they will be at home after Nov. 20. The bride is a young woman of modest and beautiful character, capable and well fitted for her new position in life. Mr. Gerke is an electrician and a young man who is meeting with much success. A number of guests from out of town were present at the wedding. They were Theodore Schroeder, of Cleveland; Fred Miller, of Bluffton; Mr. and Mrs. Frank Sherbondy, of Grand Rapids.

Nellie Mills' Ghosts.

Miss Nellie Mills, of Lakeside, had a "ghost" party last evening and thus celebrated the last day of October with all the observance due it. The guests had a lovely time. In Miss Nellie's company were Lois Puddy, Florence Klinenberg, Nellie Havens, Belle Newman, Pearl Smith, Beulah Alringer, Eva Jacobs, Erma Henderson, Muriel Baxter, Edna and Agnes Beaver and the following ghosts—Donald and Earl Gudakunst, Hugh and Clarence Hirons, Esther Bloom and Olive Spalding. On their arrival the big ghosts and the little ghosts entered the parlor, which was lighted only by a big pumpkin lantern, sat themselves down and told ghost stories. After everyone had felt as "creepy" as was deemed necessary, there were other games and a supper. Miss Mills had made unique and pretty arrangements for that. The yellow lanterns, apple candlesticks and much that tasted good to the hungry ghosts will be pleasantly remembered for a long time.

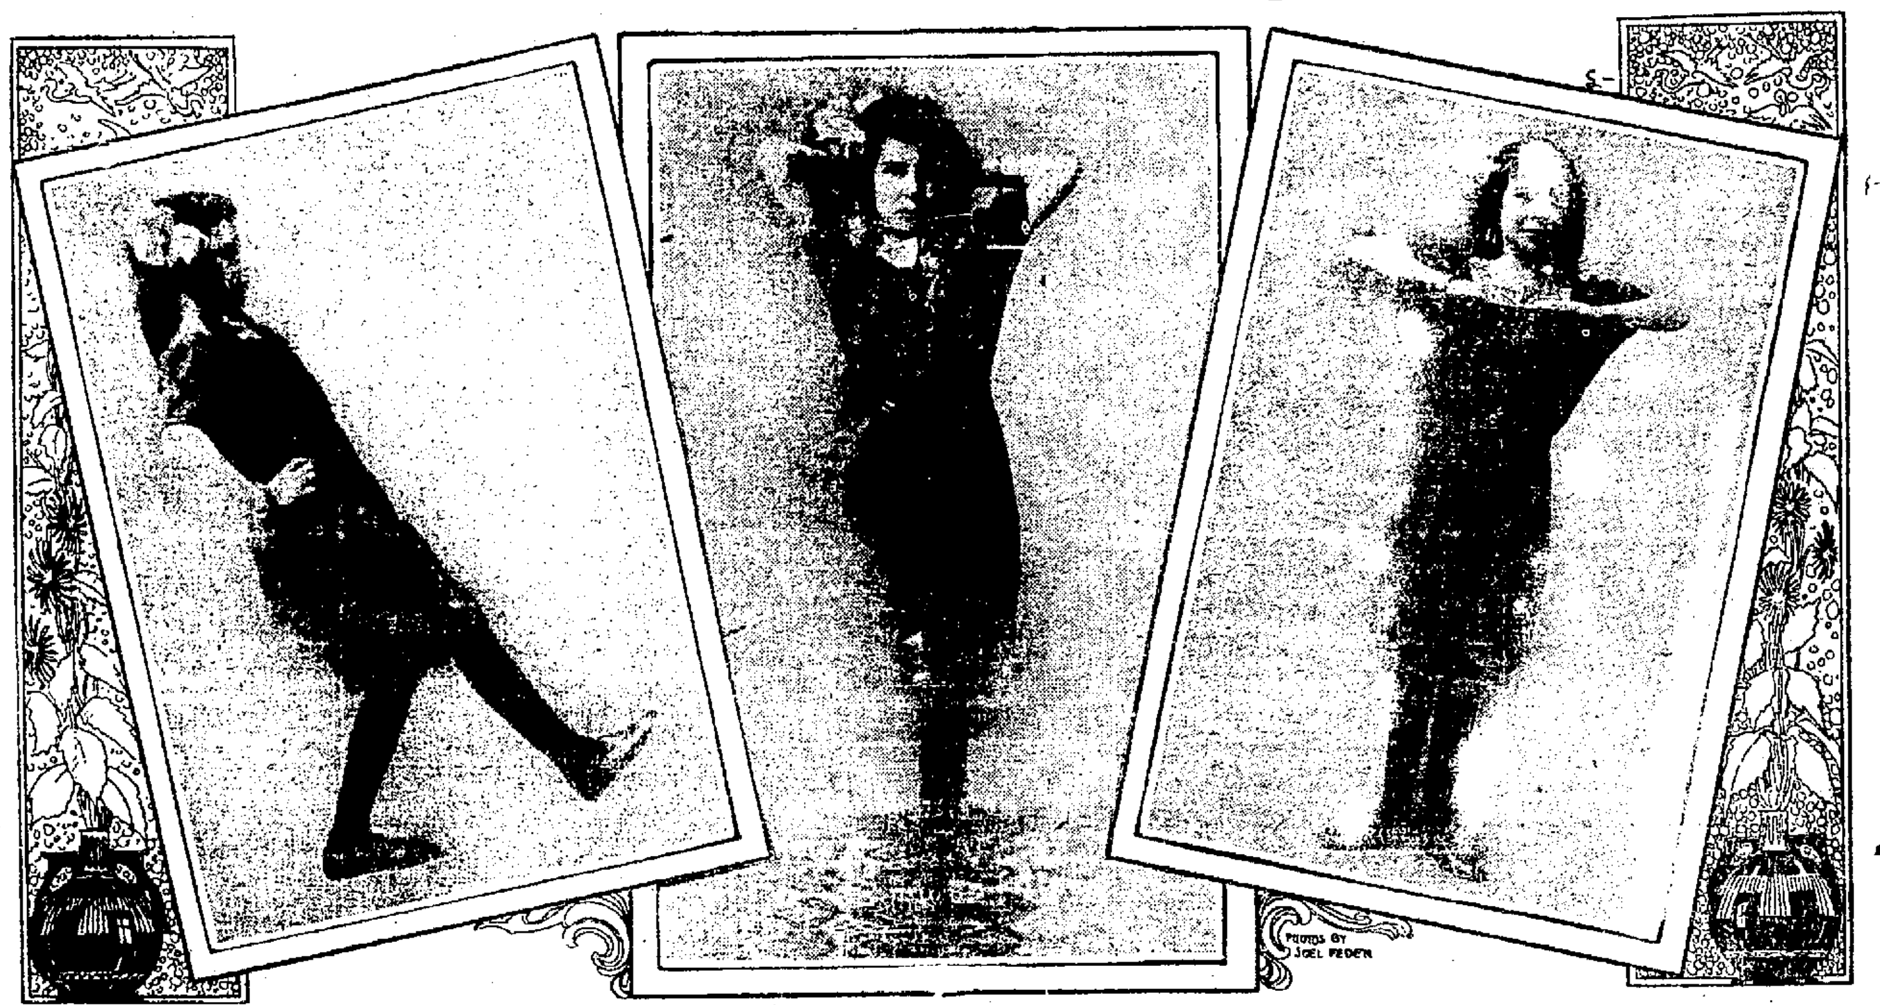
Exercises to Make Children Grow Straight and Strong



Photos by Joel Feder

Simple Means of Making Children Strong and Lithe

Little children need regular gymnasium work quite as much, if not more, than older persons, because daily exercise not only brings them health, but means the strengthening and developing of muscles that make for future beauty. The physical benefit and personal attractiveness secured by simple free hand training is, if properly done, a part of the upbringing that every mother should recognize and insist upon her children having with regularity either in the morning or at night, at least this is the opinion of an expert physical culture teacher who works constantly with children.

"Too many parents neglect this necessary training of young children," she says, "because they think the little folk get enough exercise by playing games, running, etc., and do not need gymnasium work for either health c development. But this idea is a mi take, for only certain sets of muscle are used in running, playing ball o any of the other active games, and th sinews in the chest and back, as wel as in the arms and legs, need attention to round out the figure and give strength that is constantly used in every day work. It should be remembered by mothers that when certain muscles are overtrained and others are practically useless the result is almost bound to be badly proportioned bodies that are a detriment to the children when they grow up.

"These developing exercises that I call essential for balance, beauty and grace, are quite simple and may be taken at home with no instruction except such as the parents wish to give, for most of the training is in doing things that little ones instinctively take to, because it is brisk and unusual action.

"One of the best exercises for strengthening the organs of digestion and incidentally for developing muscles in the back, legs and arms that will almost force young boys and girls to walk erect and to take good sitting postures, is done by lying flat on the floor, placing the hands above the head on the round of a chair that has been weighted down so it will be stationary, and then draw the feet up until the heels touch the hips or as near as is possible.

"Count four while moving the feet from the original lying position to the final posture with the feet against the hips, and then to the same number of counts assume the flat lying position by slowly pushing the feet downward from the hips.

"Repeat this four or five times for the first week, until the muscles become accustomed to the strain and then double the number of the exercises. Always be careful that little ones do not overwork, for their tendency is usually to do more than their strength can stand and as a result they strain the muscles and feel sore for several days.

"Another balance and developing exercise that children enjoy doing is to stand erect, place both hands, with the fingers touching at the nape of the neck, with the arms held so that they form a straight line from elbow to elbow. In this posture, one that is easy to assume, but difficult to hold for any ngth of time, the right foot—toe ointing upward—should be slowl ised until about half the distance rom the floor to the hip. Then bend e knee and bring the bent leg as lose to the body as is possible withut removing the hands from the back of the neck.

"Do not hurry with this exercise. Count four for the time of moving from the floor up and four more with the knee bent, then to the same number of counts lower the knee and to a count of four place the foot on the floor in the original position. This done with alternate feet two or three times is excellent for the muscles of the back, and for those of the chest and between the shoulders.

"An exercise that all children enjoy doing because it is difficult and like a 'stunt,' is taken by flinging or bending the right knee slightly and at the same time holding the left leg out straight in front several inches from the floor and then slowly, to the count of eight, take a stooping posture, lowering the body as close to the floor as the muscles will permit. For balance, keep the hands on the hips or at the nape of the neck, the finger tips lightly touching. This must be done alternately, first with the right leg then with the left. It is excellent for balancing and poise of the body.

"A fourth exercise that fits in with the other three and makes for suppleness and grace is the so-called swimming exercise. It is taken by first assuming an erect pose of the body, heels together, head well up, with eyes straight to the front. The hands are then raised to the chest line, palms down, with finger tips touching.

Count one, then two, at the same time the hands must be stretched out in front on a straight line from the chest. At three the palms are turned outward, while the hands are thrown as far out on either side as they will stretch. At the count of four, the hands must be in the original position ready to do the exercise over again. This may be taken six or eight times after the first trial and increased as the muscles develop.

"For small children, romper suits, that are so much worn now, will be excellent for this gymnasium work, because in them the arms, legs, as well as the muscles in chest and back are given free play."

Words of the Thoughtless Startle the Thoughtful

A Coffee advertisement says:

'First in weight, first in quality, and first in the hearts of the epicures.'

There's a truth said thoughtlessly.

Coffee "in the hearts."

How many epicures and just common people have incipient or chronic heart trouble directly caused by coffee. You with weak hearts can prove for yourselves. Try leaving off coffee 10 days and use Postum Food Coffee. If you find the old smothering sensation and the weak fluttering disappear, you will have the truth in a nutshell and will have located an enemy that has been pushing you day by day toward the narrow lot 2 by 6.

All the flaming advertisements of Importers trying to sell coffee and all the sneers of coffee topers cannot drive the truth from you, once you have tested and learned the exact facts from personal experience.

Northern Indiana News and Gossip

The Toledo and Chicago tracks at Garrett are now connected up with its line to Kendallville and Avilla.

G. W. Patterson, employed in the grain elevators at Ossian, suffered a fracture of three of his ribs in a fall Tuesday.

Mrs. Samantha Caley, 65 years of age, was struck by a Wabash train on a crossing at Belden, Wabash county, Wednesday evening and fatally injured.

The country home of John Briggs, northwest of Columbia City, was destroyed by fire which originated in a defective flue Tuesday evening. Much of the contents of the house was saved.

Ben C. Bender, age 31, republican candidate for recorder of Elkhart county, dropped dead at Goshen Tuesday while sitting in the Elks' club room talking to a friend. For eight years Bender was city clerk at Goshen.

Benjamin Renkenberger, an aged farmer residing southwest of Avilla, was badly injured a few days ago when he was kicked by a horse, the animal's hoofs striking him in the face, breaking his nose and inflicting an extensive gash above the left eye.

Directors for the newly organized Decatur Packing company have been chosen as follows: Fred Schelman, John S. Bowers, Ferdinand Beeke, Herman Gerke, Dan N. Erwin, J. H. Vogelwede and F. H. Schelman. Work will begin at once upon the erection of a packing plant at Decatur.

Dr. R. M. Crabill, a pioneer citizen of Wabash, died Wednesday night at the age of 93 years. Dr. Crabill was one of the only two democratic mayors ever elected at Wabash, and was the oldest Odd Fellow in the northern part of the state, having joined that fraternity sixty-six years ago.

Walter Zeige, an electrician in the employ of the Toledo and Chicago interurban line, was instantly killed by a live wire at Auburn Junction Wednesday afternoon. Zeige was at work beneath one of the interurban cars when he came in contact with the heavily charged electric wire. He came from Toledo about a year ago to accept a place with the company.

Paralyzed to such an extent that she could not help herself, Mrs. Richard Hunter, of Bluffton, was literally roasted alive Wednesday while seated in her chair at her home. The fire was started by a match which she struck on the bottom of her chair in an effort to light her pipe, and she was unable to extinguish the flames which communicated to her clothing. Her aged mother who heard her screams was unable to lift the suffering woman from the chair, but dashed water upon her until the flames were extinguished. Nearly all the clothing was burned from her body, and death is inevitable.

Orley W. Osborne and Miss Winifred Fryer, who disappeared from Kendallville some days ago, turned up at Detroit, procured a marriage license and appeared before Justice E. DeGraw to be wedded. When the service had begun in the private office of the county clerk, the bride-elect astounded the justice and attendants by suddenly exclaiming: "No, I will not marry you. I love you, but I am too young to be married, and besides I have not asked papa and mamma." Osborne is 36, the girl 19. They left the justice office together, and Osborne evidently has not lost hope of persuading the girl to marry him. It was believed at Kendallville that the pair had eloped.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians as the damage they do is ten fold of the good you can possibly derive from them. The Packard PIANO

FALL DISPLAY OF PIANOS

Worthy of a visit of inspection by everyone interested in the subject.

THE MASTER GRAND

An exquisite small Packard Grand, unapproached for tone or charming case design. In artistically furnished homes this piano is replacing the upright models.

PACKARD PIANO

The 1907 models of these beautiful instruments contain the handsomest cases we have ever shown. Many designs and styles a full year ahead of those to be seen elsewhere.

Packard tone is the STANDARD for comparison.

STERLING PIANOS

have gained their place at the pinnacle of piano popularity by their own merits. Their sweet, singing tone, grand volume, easy action and artistic appearance receive the highest praise and admiration of all musical critics

HUNTINGTON PIANOS

The tone and durability of this piano is usually found only in pianos selling at $50 and $75 higher. A favorite with conservatories and music schools.

PIANOLA PIANOS

The only piano containing the genuine Pianola.

There is no musical instrument that has aroused so much curiosity and enthusiasm as the Pianola Piano.

It is almost an imperative duty for persons desiring to keep up with times to see and hear this new piano—the piano that anyone can play.

THE METROSTYLE PIANOLA

The world's standard piano player, today regarded as much of an essential in modern homes as the piano itself.

A SQUARE DEAL

for all in the purchase of pianos. Our business has been built up from a small beginning to its present proportions on the foundation of giving everybody everytime a "square deal." Our ONE PRICE basis of sale insures the lowest price to all.

QUALITY THE FIRST CONSIDERATION.

If you simply seek cheapness in a piano, you not only do not save but defeat the very purpose for which pianos are bought. A piano is purchased to delight the family circle with music and to educate the ear. A thin, wiry-toned instrument in a fancy piece of cabinet work does neither of these things.

If you are contemplating the purchase of an instrument—or even view it as among future possibilities—there is every reason for making us a visit of inspection NOW

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Nov. 1.—Trading in the wheat market here today was quiet and sentiment in the pit was rather bearish. Prices were a trifle lower at the start but the greater part of the loss was regained by covering by shorts. December opened ⅛@⅜c lower at 73⅝@73⅞c to 73¾c and sold up to 74⅛@74¼c. Minneapolis, Duluth and Chicago reported receipts of 559 cars against 734 cars one year ago.

On a more general demand December advanced to 74⅞c. The close was strong with December up ⅝@¾c at 74¾@74⅞c.

Clear weather throughout the corn belt induced moderate selling of corn by cash houses. This caused a slightly easier tone. December opened ⅛c to ¼c lower at 43¼c to 43¼@43⅜c and sold at 43⅝c. Local receipts were 135 cars.

The close was steady with December unchanged at 43⅜@43½c.

Oats were easier. December opened ⅛c lower at 33⅜c and sold at 33½c. Local receipts were 169 cars.

Provisions were firm with trading fairly active. January pork opened 5c higher at $13.90 and sold up to $14.00. Lard was a shade to 2½@5c higher at $8.45 to $8.47½ and sold at $8.50. Ribs opened a shade higher at $7.50 and advanced to $7.57½.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Nov. 1.—The tone of the opening stock market was very uncertain and prices moved both ways with great irregularity. The retention of the regular dividend on Chesapeake & Ohio caused a decline of 2¼ in that stock. National Railroad of Mexico preferred fell 1½, United States Rubber first preferred a point and Canadian Pacific ¾. Reading, Northern Pacific and Central Leather rose about a point and Great Northern preferred ¾.

A sudden bulge of 3 points in Pennsylvania to 144 stimulated buying elsewhere and speculation showed some animation for a time. The improvement at other points was moderate and the entire market slipped back when profit taking started in Pennsylvania, Reading, St. Paul and Union Pacific. The top prices restored a good portion of the opening losses and placed other stocks a large fraction or more above yesterday's closing. Northern Pacific moved up 1⅝. Union Pacific, Great Northern preferred and Smelting 1¼ to 1⅜ and Colorado Fuel, United States Pipe, Knickerbocker Ice and American Ice Securities 1. St. Louis Southwestern preferred, Mexican Central, Virginia Iron and National Biscuit sold a point lower and National Railroad of Mexico preferred 2¼.

Pennsylvania receded 1⅝ from its best price and the tone was heavy in sympathy. Dealings were very small and prices made no well defined movement. St. Louis and San Francisco first preferred moved up 2¼, the second preferred 2, United States Pipe preferred 1¼ and Smelting preferred 1. Mexican Central issues were weak and when it was announced that negotiations for purchase by the Mexican government were broken off the stock [illegible] 1½, the four per cent bonds 1¾, the first [illegible] 2½ and the second incomes 2. [illegible] were irregular.

Large blocks of Pennsylvania were bought on the announcement of the increase in the dividend rate to 7 per cent, the price touching 144⅝, a rise of 3⅝. The entire market responded sharply with the demand keen for Reading. Anaconda improved 2½, Northern Pacific and Delaware & Hudson 2¼, Reading 2⅛, Smelting and Knickerbocker Ice 2, Great Northern preferred 1⅝, Amalgamated Copper 1⅛ and Toledo, St. Louis & Western preferred and New York, Chicago & St. Louis 1. American Car preferred fell off 1⅛.

Profit taking in Pennsylvania had but little effect on its price and brought about a period of dullness rather than weakness. The general market followed the movement of Pennsylvania closely but the individual fluctuations were trivial. Pennsylvania was marked up again to 141⅞ and Reading, St. Paul and Union Pacific sold higher than previously. Southern Pacific and St. Paul gained a point and Central of New Jersey 2.

The market closed strong and active. Pennsylvania touched 145 and was well sustained at that level and previous advances were extended. Reading gained 4⅝, Great Northern preferred and Northern Pacific 3 to 3⅜, Union Pacific 2⅛, St. Paul and Amalgamated Copper 2, Colorado Fuel and United States Steel first preferred 1½ and New York Central, Erie, Atchison, Louisville & Nashville, United States Steel, Brooklyn Transit, Consolidated Gas, General Electric and Sugar a point. There was some hesitation when call money went to nine per cent, but prices recovered again.

SHOP AND RAIL

Day's Happenings in the Industrial World

PENNSY STOCK GOES UP.

An Increase in Dividends Created Big Demand for Stock.

Philadelphia, Nov. 1.—The board of directors of the Pennsylvania railroad today declared a semi-annual dividend of 3½ per cent. This is an increase of half of one percent. and places the stock on a 7 per cent. basis.

The dividend is the highest declared by the company in twenty-five years. In 1881 the company declared a dividend of 8 per cent. and since that time the dividend has averaged from 5½ to 6¼ per cent. annually.

WAGONS FOR SOUTH AFRICA.

Olds Company Today Makes a Shipment to That Distant Land.

The Olds Wagon works, whose vehicles are in use in almost every country in the world, today made a shipment to South Africa. The consignment consisted of seven ordinary farm wagons and two carts of a special design. The Olds people have sent a good many wagons to South African countries, but the consignment today was to a new territory and it is believed that more orders from the same source will follow the arrival of the wagons at their destination.

REMEMBERED BY FOREMEN.

T. J. Rodabaugh Again the Recipient of Tokens of Regard.

Another touching event incident to the retirement of T. J. Rodabaugh from the office of general foreman of the paint department of the Pennsylvania western division was the presentation of a magnificent electric stand lamp and a superb and costly gold headed ebony cane to him by the foremen of the different departments and shop clerks. Like the affair at Mr. Rodabaugh's office early in the day, the one last night was a complete surprise to him. The presentation took place at the home of Mr. and Mrs. Rodabaugh. It was made by B. F. Sarver and it was witnessed by a majority of the men at the head of the departments of the shops. Mr. Sarver said:

> Mr. Radabaugh and Family and Fellow Shopmates: I have been chosen spokesman at this gathering; something that I am unqualified for and unable to do properly. This is a time when we are very sad and also very glad. Sad because we are losing our dear, beloved shopmate and friend, and glad because we are with him in his home and enjoying the hospitality of himself and dear wife and daughter. Mr. Rodabaugh is undoubtedly the oldest employe in term of service on the Pennsylvania lines west of Pittsburg. He has been in the employ of the road ever since he was a boy, in different stages in life and in different positions for the company—from the grading and laying of tracks up to the finishing of the finest cars. All this has been done with a great deal of pride to himself, as well as to the entire satisfaction of his company. Mr. Rodabaugh was born October 9, 1836; entered the service of the company in 1849 and retired October 31, 1906, a period of fifty-seven years of long and faithful service. In this period there have been many ups and downs; many trying moments and many very pleasant ones, but in his whole-souled, good and kind way he has been able to master the situation at all times, always willing to lend a helping hand to every one around him and more especially to a stranger, the one who most needed it. I distinctly remember when I first came to Fort Wayne, Mr. Rodabaugh was the first to offer me friendship and I will also always remember the many comforts and favors he bestowed upon me. He took my hand and welcomed me as a friend and assured me of his goodfellowship with the remark that if there was anything he could do for me, he would only be too glad to do it. And I assure you he has done this and more, and I also feel sure that he has been just as good, and true, and kind to everyone at this social and goodfellowship gathering tonight. Mr. Rodabaugh, in behalf of your fellow shopmates and friends, I present you this beautiful lamp and also this very handsome cane. May the lamp always be a bright and shining light to you and may this cane be an aid and help to you in the remaining years of your life and may they always bring remembrances of the pleasant hours you have spent with the dear friends from whence they came.

Mr. Rodabaugh's reply emphasized his appreciation of the sentiments expressed by Mr. Sarver. He accepted the presents as expressions of esteem and would always be reminded by them of the long and pleasant association with the men who presented them. Mr. Rodabaugh said that the sorrow incidental to his retirement from active participation in the affairs of the shop had been dissipated by this gathering of his old friends and fellow shopmates and the expressions of kindly feelings which attended it. He hoped that when the time of retirement arrived to each, that he would have a similar experience and that when the time for laying aside life's work arrived, it would find each prepared for it. Mr. Rodabaugh closed his remarks by inviting his visitors to remain and partake of some refreshments. Coffee, sandwiches and cake were served by Mrs. Rodabaugh and daughter, Mrs. W. C. Jones, and this was followed by cigars.

One side of the gold handle of the cane bore the following legend: "T. J. Rodabaugh. Kind remembrances of his Pennsylvania shopmates. November 1, 1906."

Among those present were W. L. Wilt, J. A. Graham, R. Breeze, W. A. Johnson, J. H. Fry, F. S. Doriot, B. F. Sarver, H. T. Hogan, G. A. Szink, F. A. Opatz, W Axt, P. F. Landy, P. J. Scheld, H. Lagemann, Daniel Petgen, C. P. Cherry, C. A. Contant, W. H. Newinghaus, A. Gruber, George E. Graham, H. A. Stahl, E. L. Littot, J. H. Hobrock, C. Klingenberger, J. Disser and Jacob Baches.

REDUCED WORKING HOURS.

Wabash Lops Off an Hour a Day for Section Men.

Wabash section men and their foremen were surprised last night by receipt of an order which reduced the work day schedule to nine hours a day and cut the daily earnings of the men down to $1.35; they had been earning $1.50 per day. It is likely that a number of the men will quit working for the company and seek employment elsewhere. In fact, three of the men in Foreman Chris Fosler's gang quit this morning, leaving only five men in the gang.

SUSTAINED BAD CUT IN HEAD.

This morning J. T. Hermes fell from a car in the Pennsylvania lumber yards, striking his head upon a steel rail and making a very ugly scalp wound and temporary concussion of the brain. He was taken to the hospital, where he will be confined several days. Hermes is a German and came here and took a position in the Pennsylvania lumber yards a few weeks ago.

BLACKSMITH HEARS BAD NEWS.

Herman Limbach this morning received news of the death of Mrs. Nueger, which occurred in Brooklyn last Monday, after a brief illness. Mrs. Nueger is quite well known in this city, as she frequently visited the family of Mr. Limbach, the well known blacksmith.

SWITCHMEN CHANGE PLANS.

Drop Eight Hour Feature and Fight for 10 per cent. Raise.

The Switchmen's Union of North America, according to advices from Pittsburg, has changed its original demands, eliminating the eight hour a day feature, and will simply make a fight for an increase of wages of about 10 per cent. All of the railroads have been notified of the change and have requested to give the union an answer within a few days. It is also stated that the railways, and particularly those in the Pittsburg district, still adhere to the determination to deal only with individual switchmen and to not recognize the union when employing men.

MORE CARS FOR GOULD LINES.

Bids for about 10,000 freight cars and a large number of locomotives will be asked by the Gould lines in a short time. Following the practice which has been so successful on the Harriman and Vanderbilt lines, officials of the Gould system have taken steps for the preparation of standards for equipment, and if the application of standards to all of the Gould lines, extending, when completed, from coast to coast, is carried out, the action will be more sweeping than anything heretofore undertaken.

We have used Chamberlain's Cough Remedy in our house for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

—Rev. James A. Lewis,
Pastor Milaca, Minn., M. E. Church.

Chamberlain's Cough Remedy is sold by all druggists.

We have just received a case of the famous "lambswool" that we are selling at 50c a garment or $1 a suit. This is just half price. See display in window.

SALTON SEA IS DOOMED.

Colorado River Will be Returned to Its Old Channel.

San Francisco, Nov. 1.—The Salton sea will be doomed tomorrow. The officials of the Southern Pacific announce that the last steps have been taken and the Colorado river will be turned into its old course and no more water will flow into the great island sea.

The break in the banks of the Colorado river has been filled in with piles and stone and the last gap will be closed today. E. O. McCormick, assistant traffic director of the road, has been on the ground from the east and says that there is no possibility of failure and that the river will be turned into its old channel.

The work of checking the flow of the river through the break in the bank has cost the Southern Pacific in the neighborhood of $1,000,000 and considerable damage to its tracks.

An Imitation Stove Will Give Imitation Heat

Avoid the cheaply constructed, putty jointed stove as you would counterfeit money, because it is just as worthless—and in many cases even more so. For not only does it radiate heat badly, but it wastes its original cost many times in fuel.

The majority of manufacturers, attracted by the phenomenal success of Cole's Original Hot Blast Stove, have imitated and copied it ever since it was put on the market. But in *looks* only have they been able to reproduce this wonderful heater.

For the features which make Cole's Hot Blast so economical in fuel, so effective in heating, and so durable in construction, are all *patented* and *protected*. The joints of the ordinary stove are plastered with stove putty in an endeavor to make them air-tight. When the putty dries up and falls out, cold air is sucked in through the cracks—and the valuable gases from soft or hard coal, which should be *burned*, go up the chimney, along with most of the heat.

Shows Cole's Hot Blast Stove Burning Soft Coal

Cole's Original Hot Blast Stove

Burns Soft Coal, Lignite, Hard Coal or Wood

Made without stove putty. It remains air tight during the entire life of the stove, and is sold under the following guarantee, which cannot be made on any other heating stove in the world:

GUARANTEE:

1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size with soft coal or slack.
2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with the same size fire-pot.
3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
4—We guarantee that the stove will hold fire with soft coal thirty-six hours without attention.
5—We guarantee a uniform heat day and night, with soft coal, hard coal, or lignite.
6—We guarantee every stove to remain absolutely air-tight as long as used.
7—We guarantee the feed door to be smoke and dust proof.

The big expense of heating your home is in the fuel and not the first cost of your stove. Don't let yourself be persuaded to buy anything but Cole's Original Hot Blast.

Ask for free booklet on "Scientific Combustion," which will show you how to heat your home twice as comfortably at one-half the present cost.

CAUTION See the name **"Cole's Hot Blast from Chicago,"** on the feed door of each stove. None genuine without it.
